

Creative Director: Christine Watridge

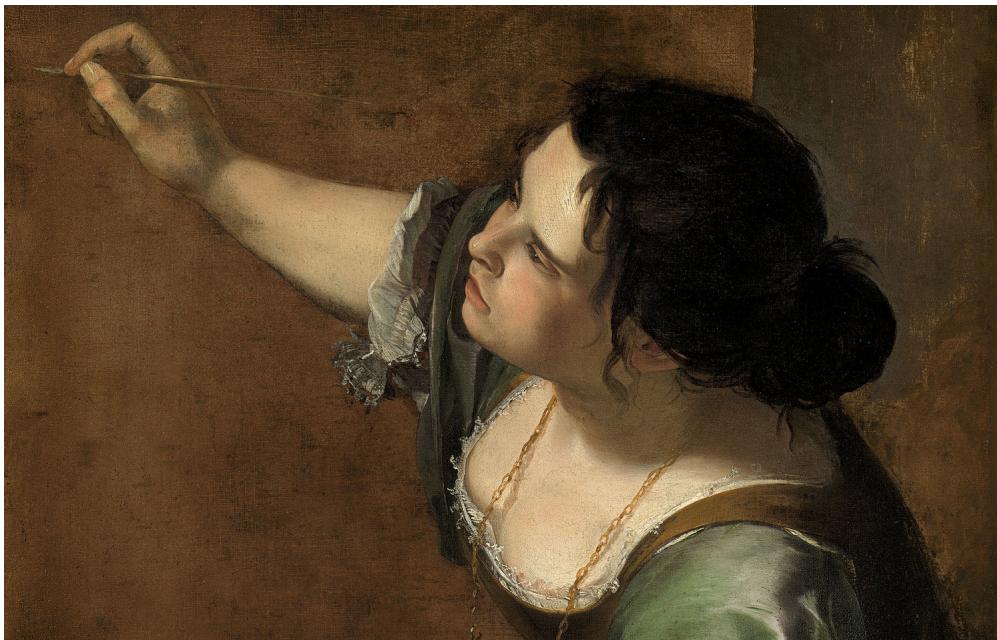

Designer: Jessica Lee

Mockup Review Notes:

- I LOVE how you've done the gallery grid!! It looks amazing and the brown really goes well with the painting colors.
- The title receding into the background also looks amazing
- the sans serif and decorative fonts go well together!

Edits:

- add a footnote: doesn't have to be anything fancy, you can credit yourself as designer and maybe add the year + class, and maybe link to home page at bottom too?
- the footnote would be a good place to link to a source page as well
- I like the simplicity of nav bar, wondering if darkest color should be a deep brown rather than black
- On the home page, left-justify text.
- I was also thinking of having a bigger, across page photo, so rather than it being in center maybe you can crop it so it fits across entire page (cropped like this or something similar/) with text going over bottom left maybe?

- Thoughts on changing background color for each section?
- When you scroll over each painting, maybe an outline appears - like each painting box is a sort of button
